SCODS NOTEBOOK

Continued from page 4, col. 9

She formerly lived in Dauphin, Manitoba, where a number of Playford lives. However, they are only distantly related to us, so please don't judge them by us.

At the late Drayton Valley's post-

ty ghts have been getting married off lately it is a good thing that the single gal racks is reinforced by a new arrival.

She is Miss Betty Scholm, of Betty's Beauty Shop, in the rear of Am's Fashion shop.

Betty comes here from Wetaskiwin where her father is a farmer.

Miss Shirley Ragan who lives here for a number of years when her folks were working here, returned from Edmonton for a visit.

While here she visited with the James Chiche, Miss Ruth Velebon and many other old friends.

Miss Waddle, who has been working for Maunz, as office manager

for quite some time, leaves this month for Calgary. Sid has been well known for his commitment work while here.

Two handworking brothers took over the Texaco Station from Roy Sied recently. They are Bob and Lorne Nelson. Bob is from Edmonton and Lorne is from Calgary.

Bob plans on building a house right away and getting his family out to live in D.V. as soon as possible.

At last reports Roy Sied had not yet decided just what he would do.

Bob and Lorne like Drayton Valley quite well and found business better than they had expected.

GYMKHANA AMATEUR RODEO

By: Steve Reddin, president, Gymkhana Club.
1st. AMATEUR RODEO BIG SUCCESS.

The first Amateur Rodeo held in Drayton Valley Saturday, September 23rd, sponsored by the Larist Gymkhana Club, was a real success. The show drew entries from all over Alberta, some from B.C. and Saskatchewan, for a total number of 173 entries, participating in the 10 event runs. Stock was supplied by Seeley Bros. of Alder Flats the events were judged by Al Casidy of Stettler and Roy Carr of Drayton Valley. Lou Matlock acted as Amateur Director. Don Du Mont announced the events.

Following is a list of the events, the winners, etc.

SADDLE BRONC RIDING—1st. Ken Powell, Turner Valley; 2nd & 3rd - Ground money to 15 riders.
BARRECK BRONC RIDING—1st. Fory Bye, Lacombe, Alta; 2nd. Johnnie Dodd, Ponoka, Alta;

3rd. Jimmie Dodd, Ponoka, Alta.
MEN'S STEER RIDING—1st. Harold Kishel, Drayton Valley; 2nd. Ken Powell, Turner Valley; 3rd. Dell Brown, Jasper, Alta.
GIRL'S STEER RIDING—1st. Sharon Haggerty, Drayton Valley; 2nd. Lorie Latsky, Drayton Valley; 3rd. - Ground money to 6 riders.

BOY'S STEER RIDING—1st. Johnnie Dodd, Ponoka; 2nd. Jimmie Dodd, Ponoka; 3rd. Brian Nash, Wainwright.
WILD HORSE RACE—1st. Fory Bye, Lacombe; 2nd. Allan Whitlock, Drayton Valley; 3rd. Lou Matlock, Drayton Valley.
COW MILKING—1st. Gale Taylor, Himsley, Alta; 2nd. Clarence Bowman, Edson, Alta; 3rd. Harold Blaylock, Drayton Valley.

CALF ROPING—1st. Roy Bennett, Uncas, Alta; 2nd & 3rd. Ground money to 5 contestants.
BARREL RACING—1st. Jack Leach, Edmonton; 2nd. Bob Hood, Edmonton; 3rd. J.C. Carr, Moon Lake.
POLE BENDING—1st. Bob Hood, Edmonton; 2nd. Jack Leach, Edmonton.

Edmonton; 3rd. Allan Whitlock, Drayton Valley.

There were a few minor injuries during the day, but nothing too serious. Highlights of the day were the rides made by Henry the Barber and Henry of Dwell in the Barreback Bronc Riding (they off to a couple of good spots).

During the Intermission The Fort Trail Square Dance Group of Edmonton entertained with 2 numbers. This group of eight riders, practiced 18 months before their first appearance. I am sure that all who say it for the first time will agree that this was fine entertainment.

The weekend of events commenced Friday night, with a dance in the Recreation Centre, with J.B. Dance Band of Edmonton, after snow and over cast skies on Friday. Saturday was a beautiful clear, sunny day, and at twelve noon the Drayton Town band led off the parade, consisting of the Larist Gymkhana Club members some Rodeo Contestants, the Latsky - Pony Stage Coach and

other riders. The event commenced at 1:15 P.M. Saturday night saw another dance at the Recreation Centre which proved very popular.

Sunday afternoon, a few disheartened members of the Gymkhana Club with visiting gymkhana club members, held a Jackpot Gymkhana at the Rodeo Grounds, each rider paying 25¢ entry fee for each event, the winner taking all. The purses for the day went to Dalton Brown - Stakes & Barrels, Cliff Whitlock - Flags, J.C. Carr - Pole Bending for the stable, Lloyd Matlock - Stakes, Poles & Barrels, Glen Swendsen - Flags in the Junior events. The Larist Gymkhana Club wishes to thank the many people who helped us to make the show the success it was.

(There will be a general meeting of the Larist Gymkhana Association in the Legion Hall - Thursday night at 8:00 P.M.)

ROTARY AUCTION SALE

1st. ANNUAL ROTARY BENEFIT AUCTION SALE
Saturday, October 28th at 1 P.M. is the time and date set aside for the Drayton Valley Rotary Club to hold their first Public Auction.

This gives the community at large the opportunity to participate in that, it gives you a chance

to be rid of those articles around home which are no good to be handed out to the dump but which would be so easily sold in the basement.

Full home clearing is just one to fall swing, to take stock of what you may pass on to your local Rotary Club as the sale of these items will go right back to community projects.

Just as mention a few items to remind you of something that may be kicking around the place. That lawn mower you couldn't trade off on that new power mower. The wash machine the department store didn't want. That tube radio no one uses. The carpet which was almost worn (Cont. on page 3, Col. 1)

ROTARY AUCTION SALE (Cont. from page 3, Col. 5)

Our, What about the couch or single bedstead. Those slates that are too small for Billy. Lamps - Books. A couple of sheets of veneer or a door left over from building jobs. Electric lawns. Gallon of paint - (Someone mentioned this was the chance for him to get rid of it) I'm waiting now to see who is the boss.

There are literally hundreds of items that we hope will show up for this sale. Besides giving you a chance to get rid of some of the items around your house, it will also give you a chance to get something you have been looking for.

The proceeds from the sale of these donated items will be used to provide for community projects.

Some of the projects which Rotary has sponsored are:

Community Playgrounds - D.V. Boy Scouts.

Toboggan and ski slides. Sending of scopes to Dominion Rally.

Sending of students to Dominion Parliament for Education in Citizenship.

Christmas Hampers.

If you have items to be picked up for this sale please phone 542-3571 or 542-3071 or contact Walter Kruse at Scania Tire Shop.

Mr. and Mrs. Roland Press are the proud parents of a new baby daughter. Congratulations, Mr. and Mrs. Press.

Happy to be able to report that Mr. Peter Anderson is well enough to be about once more. Mr. Anderson became seriously ill about two weeks ago and was taken to University Hospital by ambulance.

The Gymbnase Club's Rodeo was held last Saturday. Quite a number of panos ignored the cold wind and enjoyed the performance. Although we were a group of those who "chickened out" and went home half frozen there were plenty of thrills and spills while we were there.

Harold Reihart had a close call when his brow drove him and then stepped on the side of his head. The gals required two stitches. This (surprisingly) beginning did not prevent Harold from coming back to win in two major events.

Did admit the sportsmanship displayed by Henry Banak and Scotty Anderson. Splendid attempt for a first ride.

Closing address was given by Mayor Adrian Meier speaking in behalf of the Town of Drayton.

Little Beth Brown took a hard tumble when the rope around her neck's middle broke. Was very pleased to note that my friends, Garry Johnson and Sharon Haggerty, turned in good rides.

Joe could go on indefinitely but our editor will report fully and one must not be repetitious.

The Drayton Valley Home and School got away for the coming season with a meeting on Monday evening in the Elementary School Auditorium. A good representation of parents and teachers were present. Chaired the meeting was H. S. president, Bud Byrum, Rev. A.R. Wright had arranged the program for the evening which consisted of introductions, with a brief word of introduction from each teacher, given by various members of the Home and School Association.

A speech of welcome was given by Rev. R. Brown, who welcomed the teaching staff in behalf of the clergy of the district. Mrs. Miller, representing the parents also gave a speech of welcome to the teachers; followed by Lorne Stevenson, president of the Local Club, who spoke representing the Service Clubs of the district.

Those who were baptized were Susan Ruth Brown, Charles Oliver Beckering, Dwayne Kelly Beckering and Michelle Marie Sayre.

Attendance and interest in all departments of All Saints Anglican Church is showing a marked increase and signs point to a very good year immediately ahead, and in the years to come as the church sees the spiritual needs of the people of this district.

Plans are underway for the church for an evangelism visitation program to be carried within the next few weeks.

Valley and also for the Chamber of Commerce.

The new executive for the coming year is as follows: Bud Byrum, president, Fred Kaarmaker, vice president, Mrs. Megan, secretary Mrs. Dean, treasurer and Rev. A. Wright, program chairman.

H.S.S. meets every fourth Monday of the month, in the Elementary School Auditorium.

They were Mr. and Mrs. Whittington, of Edmonton who were accompanied by Mrs. Allen and Mrs. Reynolds, and the two uniting Mrs. Doye and Chels. As are so many other visitors of our community they were quite impressed with the size and modern, up-to-date appearance of Drayton Valley.

Mr. and Mrs. Melvin Wright, of Regina brought visitors at the home of their niece, Mrs. Eleanor Pickens.

GOLFER PAR EXCELLENCE DEPT. The boys with the drivers and the putters are still talking about Dr. Jean Waugh's recent 34 strokes around the Drayton Valley Golf Course. These weeks ago Dr. Ian also went around the course in par, which is 35.

When he made the 34 Waugh was playing with a foursome comprised of Leo McKenna, who shot 41, Alex Balash, with 40, and Jim Wilson, who shot 46. So you can see he was playing in some mighty tough competition.

Plans are underway for the church for an evangelism visitation program to be carried within the next few weeks.

Const. page 4, col. 2.

From Scoop's Notebook

God parents for Mrs. Susan Ruth Brown, who was Baptized by her father, the Rev. Russell Brown of All Saints Anglican Church were visitors with the Brown family over the weekend.

They were Mr. and Mrs. Whittington, of Edmonton who were accompanied by Mrs. Allen and Mrs. Reynolds, and the two uniting Mrs. Doye and Chels. As are so many other visitors of our community they were quite impressed with the size and modern, up-to-date appearance of Drayton Valley.

Mr. and Mrs. Melvin Wright, of Regina brought visitors at the home of their niece, Mrs. Eleanor Pickens.

GOLFER PAR EXCELLENCE DEPT. The boys with the drivers and the putters are still talking about Dr. Jean Waugh's recent 34 strokes around the Drayton Valley Golf Course. These weeks ago Dr. Ian also went around the course in par, which is 35.

BLOOD DONOR CLINIC

By Mrs. Joan Cramlin.
HAVE BLOOD -
WELL YOU DONATE?

Once again the citizens of Drayton Valley will be asked to donate blood to the Canadian Red Cross Blood Transfusion Service. The date of the coming BLOOD DONOR CLINIC is Monday, October 2nd, the times, 9 to 4:30 P.M. and 7 to 9:00 P.M., and the place - the Drayton Valley High School Auditorium.

Every day, it seems we receive an appeal to donate to some charitable campaign. However, our charitable blood will stretch only so far. Here, then, is an opportunity to make a donation which will come as nothing to a monetary man. Here, too, is an opportunity to make a donation to a charity upon which each of us may someday have to call for help. Will the blood be there when you need it? That depends on the voluntary donations of people like ourselves.

This business of giving transfusions of human blood is very complicated. Many years of research were required before it could be done safely. Matching blood and preparing it for transfusion require a high degree of knowledge and technical skill. The Canadian Red Cross employs a large staff of professional people to ensure that the blood donated is carefully collected, thoroughly checked and matched with the patient's blood before it is administered, in order to ensure complete safety of the procedure. The transfusions are given completely free of charge. No patient is ever required to pay the hospital, the doctor, or anyone else, for a transfusion in any area supplied by the Canadian Red Cross. The Red Cross supplies the life giving service for our benefit. However, they cannot operate without raw materials. There is only one source of human blood and there is no completely adequate substitute for human blood. The work of the Red Cross in this field is dependent upon you - the Blood Donor.

You may wonder how the blood collected is used. The majority is used in the form of whole blood, but some is broken down into various blood products. The Blood and Blood products are used to control hemorrhage, to combat shock, to speed recovery, to prepare patients for surgery, to save the lives of babies born with blood defects or blood incompatibilities, to treat brain patients, to assist mothers in some childbirth irregularities, and to treat and often save the lives of accident victims. One fairly new and very worthwhile field in which many points of blood are used is the field of open heart surgery. Each operation requires a large amount of blood. Drayton Valley is a centre for this type of surgery, so it is quite possible that your donation may be used for this commendable purpose.

At the donor clinic held in Drayton Valley last May, 275 bottles were donated. We hope to raise this figure by 50%. To date our local hospital has been supplied with 18 bottles of blood in 1961. Undoubtedly, other Drayton Valley residents have received transfusions in other hospitals.

We who live in an industrial area should be particularly generous in this matter. If you are in good health, between the ages of 18 and 60, you are eligible to donate blood. It is a painless procedure and will cause you no physical harm.

There are, however, some people who should not offer to donate blood. If you have ever had any history of jaundice, the Red Cross is not able to accept your donation. Also, they advise pregnant women not to donate. Each person will have his blood haemoglobin level checked before his donation is accepted, to make sure he can spare the blood.

Once again the BLOOD DONOR CLINIC is being sponsored by the local chapter of the A.A.R.N. with assistance from the Hospital Auxiliary. The Joan Amick Memorial Shield is again being offered for competition among groups and organizations. To win the shield, your group must have the highest number of donations. Each donor is given an opportunity to register with a group. At present the United Church holds the shield.

Remember! Next month it may be you who requires blood. Get out and donate!

Date - October 2nd, 1961

Time - 9 to 4:30 p.m.

7 to 9:00 p.m.

Place - High School Auditorium

SEE YOU THERE!!!!

NOTEBOOK.....

TRUE FISH STORIES DEPICT

Mrs. and Mr. Mark Powers took off from Drayton Valley a couple of months ago with their truck fixed up as a canoe, with their boat on the top. They landed up locally at Vancouver Island, near Port Alberni, where they took on some of the most wonderful salmon fishing.

Mark lost a lot of big fish until he got heavier 30 lb. line, with steel leaders, and then with the heavier equipment they were ready for the big ones. One hit Mark's line, doing about 50 miles per hour, when he hit the plug, a big Tyne Salmon, with a lightning bite and the muscle to back it up.

Mark fought him for over an hour with the big plug pulled their boat right into line. When they finally gaffed the big one over the side after the battle they found that he weighed a whopping 45 lb. The Mr. Powers also took in one that weighed 42 lb.

No, they haven't eaten them yet they brought both fishes back to

CUB & SCOUT MOTHERS AUXILIARY

The Cub and Scout Mothers Auxiliary will hold its first meeting of the season on Thursday evening, October 5th at 8:00 p.m. in the Scout Hall. It is hoped that there will be a good turnout of Mothers as plans will be made for the annual fall sale of the Cub Scout drive. If you have a boy attending Cub or Scout, you are automatically a member of the Auxiliary and your boy needs your support.

Reported by Mrs. Donna Smith.

LUTHERAN LADIES AID.

There were seventeen ladies and Pastor Seyer present at the September meeting of the Ladies Aid.

The nature of the Christian Home was the topic of our study and Pastor Seyer outlined at some length the meaning of same with the ladies participating in the discussion.

A vacuum cleaner has been purchased for the church.

November 3rd is the tentative date set for our bazaar. More details will be announced later.

Mrs. Anderson will again be hospital visitor for the coming month.

Mrs. Jorgensen and Mrs. Schielder will clean the church for the month of October.

Next Sunday, October 1st will be Sunday School Promotion Day.

We welcomed two guest this evening, namely Mrs. Kruger and again Mrs. Huggins.

Our next meeting will be held on October 15th, with Mrs. J. Metzger as hostess.

A delicious lunch followed served by Mrs. Ludwig.

COOKING MAGIC
Tease Cool Cooking with the Clean Blue Flame of GAS
Tested Recipes and Meal Planning Ideas Prepared for Pembina News Advertiser Section by the Home Service Department of Northwestern Utilities, Limited

Letter To the Editor:-
Dear Sir,
When I recently handed Mrs. Fry (in your office) my "subscription" - I remember you were interested in how we had come up from Rocky Mountain House.

Looking for a fancy dessert for that extra special occasion? Start with an angel cake, gelatine, whipped cream and fruit and in a matter of minutes you have a real taste treat.

PEACH ANGEL CAKE
9 egg yolks
2 1/2 cup sugar
1 cup orange juice
2 tsp. gelatine
2 tbs. water
1 9-inch angel cake
1/2 cup sliced peaches
1 cup sweetened whipped cream
1/2 cup sweetened sliced peaches

Beat egg yolks until thick and lemon colored. Continue beating and add sugar slowly. Beat until light and fluffy. Add orange juice. Cook over low gas flame until of custard consistency. Add gelatine which has been soaked in cold water and dissolved over hot water. Chill in gas refrigerator, Slice in three layers. Spread each layer with canned mandarin and sliced peaches. Chill in gas refrigerator several hours. Just before serving top with sweetened whipped cream and sweetened sliced peaches. Serves 10.

ROYAL STRAWBERRY DESSERT
2 tbs. gelatine (2 envelopes)
1/2 cup cold water
1/2 cup, salt
3 tbs. lemon juice
2 cups heavy cream
2 cups crushed strawberries
1 cup sugar
Angel food cake

Soften gelatine in cold water; dissolve over hot water. Add strawberries, lemon juice, sugar and salt; chill until partially set. Fold in whipped cream, then spring-form pan with half-inch thick slices of angel cake. Fill with strawberry mixture. Chill in gas refrigerator until set. Serves 2.

CHOCOLATE ANGEL FANCY
2 8-oz. pkgs. semi-sweet chocolate
1 tbs. sugar
1 cup, vanilla
1 cup, water
1 cup heavy cream, whipped
3 beaten egg yolks
1/2 cup, salt
3 stiffly beaten egg whites

1 ten & five - inch angel cake, broken in pieces. Melt chocolate pieces with water in double boiler. Blend in egg yolks; cook and

stir a few seconds. Add vanilla and salt. Cool. Fold sugar into whipped cream and fold into chocolate mixture; fold in egg whites. Pour over pieces of cake in 10 x 9 1/2-inch baking dish. Chill several hours in gas refrigerator or overnight. To serve cut in squares and top with extra whipped cream or vanilla ice cream. Serves 10.

The Jasper Hatchery fills the fish-planning requirements of all the western National Parks. During the current year, over a quarter of a million lake trout, Speckled, rainbow, cut-throat and splines were released to maintain the good fishing for which the parks are famous. How much did they weigh? One out-of-gatch on the average, but the total comes to more than seven tons!

GREEN ACRES
Earl C. Lowe, District Agriculturalist.
EASY CARE PAYS

The importance of using good management practices in handling young pigs cannot be over-emphasized. Some farmers in this district are putting 2000 pound hogs on the market in little over five months while others are boarding their hogs for nine months or even more. As a big gas close to his first birthday before leaving home, the profit (if there is any left) from raising him becomes less and less. This is due to extra lab or, more feed required per pound of gain and probable lower carcass grades.

Repeat experiments in both Canada and the United States have definitely proved that the heavier a pig is at weaning, the quicker he will reach market weight. The same experiments have also shown that pigs which are kept growing rapidly on well balanced feed (approximately 18 per cent protein) until they are about 130 pounds, have the biggest proportion of lean tissue. Meat and muscles are developed in animals to a greater degree during their early growth period.

In view of these facts, pig producers cannot afford to overlook the importance of cheap feeding sucking pigs, says Alberta's Live Stock Supervisor, A.J. Chamenki. The flow of the new's, milk starts to diminish when the little pigs are ten days old and go in need of more food for their rapidly growing and developing bodies. At this stage, a dish of skim milk and another of crushed wheat or rolled oats (on porridge), to which has been added fish feeding oil and

THE COST OF DISCIPLESHIP

If any man will come after me, let him deny himself, and take up his cross, and follow me. — Matthew 16:24.

By Rev. E. Gilmore Smith

The words of this text strike a universal note. "If any man will come after me," it says. This direction is true for all disciples. It was quite literally true. Most of the apostolic band suffered death because they were followers of Jesus. Some, indeed, were crucified. For tens of thousands of Christians in the Roman Empire the cost of discipleship was death.

Those conditions apply not only to generations long since gone to their reward. Even today there are countries where discipleship exacts a heavy cost. In Nazi Germany thousands of Christian pastors and people went to prison and death because they were determined to obey God rather than man. They would not deny their Lord, and secure favor by endorsing and supporting the cruel racial policies of their gangster rulers. In every Communist land the active and practicing Christian encounters discrimination and often persecution. Not only does his religion bar the way to all official advancement, but even thus the door to opportunities for employment. The words of Jesus find definite and literal application in the penalties incurred by all Christians.

TRUE IN CHRISTIAN SOCIETY

We may readily acknowledge that this is true in countries where governments are anti-Christian, but fail to see that there is any parallel in our so-called Christian nations. In Canada there is no governmental opposition to the Christian Church or to individual Christians. In our communities the church is a respected institution with almost complete freedom to proclaim the Gospel in ways that it believes to be right. Freedom of religion in Canada is a reality which we enjoy because former generations challenged and opposed tyranny in church and state.

Under such conditions how can it be true that discipleship involves a call to self-denial and cross-bearing? Evidently a Christian can live comfortably relaxed, suffering no discrimination or persecution. But in reality this is not so. We are living in a society where there is much open and secret sin. Evil forces are strongly entrenched in the lives of individuals and in the social and economic life of Canada. Standards of conduct which fall far below that of Christ are openly accepted and widely approved. If the individual Christian or the Christian Church are fitting no more comfortably into their society, it may well be that their standards have lapsed to the level of the world about them.

take if we think the cross means the burden of life, such as toil, poverty, violence or old age. It does not mean that. Nor does it refer to a "burn in the flesh" — some humiliating infirmity or facial defect, some blemish or crippling. These are grievous conditions which we may not be able to avoid or change.

The very essence of the cross is that it is not inevitable, not something imposed upon us, whether we will or not. The cross is some hard lot in life, some limitation or poverty, some suffering or exile or death which we choose voluntarily for the sake of a great cause or a beloved leader.

This is exemplified in the story of one of the greatest men living today, Dr. Albert Schweitzer. For over 40 years he has brought medical healing to a primitive tribe in Africa. To do this noble work he has lived in isolation from the comforts and satisfactions of a cultured society. Supremely gifted as a philosopher, a theologian and a musician, he renounced a career in his homeland in order to invest his life among the unprivileged for the sake of Christ.

Self-denial might seem to be also a renunciation of happiness. But it is not so. On the road to the cross Jesus spoke continually of His joy which no man could take from Him. To His followers He promised, "My peace I give unto you. Let not your heart be troubled, neither let it be afraid. That my joy might remain in you and that your joy might be full." Jesus' life of self-denial was full, rich and satisfying. For His followers self-denial is the road to the life more abundant.

LUTHERAN CHURCH NEWS

"THIS IS THE LIFE" SETS T.V. RECORD

While some sponsors and producers have been insisting that it takes "sex and violence" to make a successful television series, a dark home in the television field (which features neither sex nor violence) has quietly snatched up from behind to take the audience lead.

On Sunday, October 1, "This is the Life", sponsored by The Lutheran Church, will be on the air.

1962 CHEVROLET

A roofline that looks amazingly like that of a soft-top convertible is a striking feature of the 1962 Chevrolet Impala Sports Coupe shown here. The new Chevrolet is extensively restyled and features a lighter weight Powerglide automatic transmission with the optional 327 cu. in. V-8 engine.

OKHAWA, Ont. -- A redesigned 1962 Chevrolet was announced here today by General Motors of Canada. All two and four-door Sedan models have completely new profiles that resemble the popular Sport Sedan. The Impala Sports Coupe roofline is practically identical in appearance with that of the soft-top convertible.

General Motors also unveiled the 1962 Corvair which features new grillework and redesigned emblems, tail lights and engine exhaust grille.

Chevrolet features a crisp, tailored look. The 1962 models have completely new doors, hood, grille work, bumpers and ornamentation, as well as new exterior colors and restyled interiors.

A number of mechanical changes and modifications will improve performance, durability and economy of 1962 models.

Among the major changes are a new 327 cu. in. V-8 engine which is available with a new weight-saving Powerglide auto-

matic transmission.

The new V-8 engine is rated at 250 horsepower. It replaces the 348 cu. in. engine except for use in heavy trucks. Its performance equals the 348, but fuel economy and engine operating efficiency are both improved.

Heaters and built-in front seat belt anchors are standard equipment on all 1962 Chevrolet cars. A limited slip differential and air conditioning are also available throughout the line of 32 passenger car models.

Adding to its fresh styling appearance, Corvair will have new twin ornamental grilles in front and rear, as well as new exterior colors and restyled interiors. The Corvair 500 station wagon will be replaced by a luxurious Monza station wagon with optional bucket seats.

1962 CORVETTE

Chevrolet's sports car, Corvair, features a brand new 327 cu. in. V-8 engine.

O. O. R. P. News

The first meeting for pig new club year re-convened on September 20 with 34 members present.

Lady Beatrix, who was absent during installation of officers on June 6th, was installed again as treasurer. She was presented with a gift in appreciation of the splendid work she had done the past year.

A large coffee canner was purchased for the kitchen in the Ell's Hall.

A donation was sent to the St. John Ambulance in September.

There are 22 students who are eligible for books for a perfect attendance record for the school year 1960 - 61. These include nine students in grade 7, nine in grade 8, and four in grade 10.

Two students from grades 9 and 10 won a bonus each for highest marks in Mathematics and Literature. Marie Ann McLean, Literature. Marie Ann McLean, Literature.

Serving as the basis for all power teams this new engine, coupled with optional fuel injection, is rated at 380 horsepower.

In addition to the standard 250 horsepower version with a 4-barrel carburetor and hydraulic valve lifters and a 340-horsepower engine with a single large 4-barrel carburetor and special camshaft are available in the optional equipment lineup.

A lighter weight Powerglide unit with aluminum case is used for the automatic transmission option.

The Corvette for 1962 retains much of its popular sports car identification. Pleasing exterior refinements include a windsplit around the cove replacing bright grille moldings. Grille configuration replaces three horizontal bars in the cove. The front grille is finished in black.

Chevrolet of the Corvette is offered in four upholstery colors: white, black, light beige, red, white, silver, maroon and medium beige are the seven solid exterior colors available.

9. will receive one for Math and Joe Harnisch, grade 12, will receive the other for Literature.

Six members will be serving lunch at the Blood Donor Clinic on October 2nd.

By Aileen Ohlsen.

"Wonderful, Ruth! That time the ball went almost as far as your direct!"

AND BY APPOINTMENT

One Certain Way To get a Woman's Heart Yearning is to Whisper in her Ear Your Capacity for Earning.

The divorce rate in this country won't be so high when women learn the reason a man loves a dog is that the dog worships him.

Looking at Recreation

By Michael Gormley,
Recreation Director,
OUR SCOUT MOVEMENT

A local organization that has been a driving force in the development of the community's recreation program has resumed regular activities after the usual slack period during the warmer months. The Boy Scouts and their affiliated organizations, the Cubs, Brownies and Guides are all back to their program of citizenship and character development through scouting, outdoor living, arts, crafts, sports and games.

The local youngsters taking part in these activities under qualified volunteer adult leadership form an integral part of one of the greatest international recreational organizations of our day. The Scout movement is world wide. It can be found in the deep South and the barren North, in the Western Hemisphere and in the Eastern portion of the globe, in Canada, the United States, Japan and China. The scout never rests on the work, the play, and the adventures of the Boy Scout.

The Scout organization throughout our country and throughout the world offers qualified leadership and programming for a multitude of smaller, continuing and self-determining groups. People wherever they are, boys or girls, men or women and whatever their age, on the wilderness path or scorching tropics want the satisfaction that comes not so much from an activity itself as from the opportunity for close group association with those of their own age and kind. This is one of the chief ways in which volunteers and young people acquire social purposes and habits, learn to accept responsibility and eventually exercise leadership. The "activist" in their life the need for group association. The urge for close group belonging is strong on the part of children and youth up through high school. Clubs, troops, sports and councils and in many ways teams sports fulfill this urge to join and belong to their own group on the part of all ages.

In the younger group, the social habits are of the elementary order. In teenage groups, social purposes, leadership and responsibility are learned. In young people's and adult groups, the emotional satisfactions are less, and organizing is far the pursuit of common interests, values and purposes. It is in these groups with continuing membership, where citizenship, character, behavior and the values of life itself are most effective. Of all the organizations and groups that offer these priceless opportunities to young and old alike I would say that the Scout program is possibly the most outstanding in the world today.

At the same time each and every phase of the local recreation program, the Drayton Valley

Scouts, Cubs, Guides and Brownies are all blessed with outstanding leadership. We have interested and devoted men and women who willingly give their time and their ability to a program which fosters citizenship, leadership and democratic principles.

I often wonder if some of our youngsters truly realize the tremendous opportunity that is theirs in being a Cub, a Scout, a Brownie, or a Guide. Here you have opportunities of intellectual and social growth and development which in all probability were denied to your parents and less fortunate people of other generations. It should be considered a great honor to be a member in good standing of any phase of the Scout program. Here you are a member of an international and time-proven organization whose program is not just another accumulation of recreational activities but a very symbol of ideal patriotism itself.

The overall membership on a local level is average and I am told that there would be room for improvement in some categories of the program. I understand that last year the total number of Scouts, Cubs, Brownies and Guides attending regular meetings were less than 300 which could be classified as below average when you consider that Drayton Valley has a very young population. Here is a golden opportunity for our youngsters and I think that more enthusiasm should be shown on their part in this important phase of growing up. Personally, I think if you are not a member of the Scout organization, you miss something which you can never pick up anywhere else. The training is unique since this is a unique organization.

ART GROUP REORGANIZED:

If you have a flare for painting and would like to practice and improve your artistic capabilities here is a suggestion. The Drayton Valley Art Group is being reorganized on a similar basis to what it operated so successfully for several months last year. Starting September 10th, the group will take on an course of seven monthly lessons. The group is under the direction of Dorothy Worthington and will meet for instruction in the Civil Defence Room of the Town Hall. An instructor from the Department of Education of the University of Alberta will be on hand to give advice and assistance to guide the artistic hopefuls along the lines of progress and accomplishment. Last year the instructor for the most part was Harry Whitford who lived in the Drayton Valley.

At the same time each and every phase of the local recreation program, the Drayton Valley

Scouts, Cubs, Guides and Brownies are all blessed with outstanding leadership. We have interested and devoted men and women who willingly give their time and their ability to a program which fosters citizenship, leadership and democratic principles.

All interested parties are requested to phone Mrs. Worthington at 542 - 3774 at their very earliest convenience so that they will have a comprehensive group of the group membership well in advance to the opening date. The club is open to anyone interested in art and no previous artistic experience is in any way necessary to enroll as a member of this group. The annual fees for the course will depend to a great extent on the membership. This is strictly a non-profit organization and the cost of the monthly instruction is all that is needed; to which a reasonable membership fee should be added. Here is a golden opportunity to develop a skill, so if you are so inclined I would strongly advise that you take every advantage of it.

BALLROOM DANCING:

Here I am taking a brief step into the sphere of commercial recreation, a field in which I have little or no business as Recreation Director for the Town of Drayton Valley. Recently I had a visit from a gentleman representing Delmar Dance Studios. Delmar, he would be interested to come to Drayton Valley to teach ballroom dancing on a weekly basis at \$1.50 per lesson per person. If you are interested in this kind of thing you could be in touch with Delmar Dance Studios at 10131 - 101 St. SE, Edmonton, Alta. or Phone GA - 7628.

BALLET NEWS:

Recently I received word from Rick Jodel, Assistant Supervisor of Community Programs in regard to the possibility of obtaining a qualified ballet instructor to tutor the proposed ballet class. We are advised to contact Miss Margaret Perry who is presently taking a course in advanced ballet at the University of Alberta and is doing some very fine instructional work in the province in this particular field. Miss Perry has been contacted in the matter but to date no answer has been received from her, should she be unable to accept Jack felt that Miss Beverly Barnhouse of the Edmonton Recreation Department would be in a definite position to help us. Dave Peterson, Supervisor of Music for Community Programs has also expressed his willingness to assist in the matter. So we have the right people ready to go to work for us and I should think that sooner or later we would come up with the person we are looking for to direct the budding ballet group.

FOOTBALL CHATTER: Recently a three-man delegation from town, Bruce Barton, Hank

Shimshah and Yous Truly traveled to Lacombe to attend a meeting of the Central Alberta High School Athletic Association. The purpose of our visit was to sound out the chances of entering our High School or Juvenile football team into the Central Alberta High School Football League with Red Deer, Ponoka, Innisfail and Lacombe. Our proposal was that we enter this league in 1962 on an interlocking schedule basis whereby we would play two teams on the road and have the other two teams in the loop visit Drayton to round out a four game schedule. The proposal was promptly and unanimously turned down, the reason being that it was felt that the travelling distances in any case would be prohibitive.

With this possibility definitely out of our other chance to enter league competition next season would be the Camrose-Wainwright-Jasper Place loop. The Spartans have a home and home exhibition series with Camrose next month and we also hope to play J.P. on a similar basis this season. The local team's showing in those four games would certainly have some bearing on our admission into this league. As was pointed out at the Lacombe meeting, our geographical position is one of all favorable for competition in any high school football league. In the meantime we will keep our fingers crossed and hope for the best in 1962. It would certainly make quite a difference in all circumstances.

The Keep-Fit classes for ladies in the community have been organized and will start their activities on Wednesday, October 4, in the Scout Hall at 9:00 P.M. The class will be under the direction of Frieda Leuenburg this year and will operate on a weekly basis throughout the fall and winter season. All interested parties are asked to contact Mrs. Leuenburg through their very earliest convenience. The phone number is 542 - 3636.

TOWN CALENDAR

COMMUNITY LIBRARY HOURS: Tues. 12:00 - 1:00 p.m. and 3:30 - 5:00 p.m., Fri. 3:30 - 5:00 p.m. HOME AND SCHOOL MEETING - Fourth Monday of each month in Elementary Auditorium.

LOOKING AT RECREATION.
Cont. from page 8, col. 5.

Time will answer this question of course, however, I have a feeling that somewhere, somehow, someone will take us in and make us feel at home.

In Pex Wee action on the weekend Dunc Larchalaster's Eskimos sent out their initial warning that the definitely have plans of carrying away the beautiful Forester Trophy for the second straight year when they ran over the disgruntled Stampeden 13-0. The Eskimos definitely held a decided advantage throughout the game, but when all is said and done, the deciding factor seemed to lie in the fact that the Eskis had that driving desire to win which seemed to be sadly lacking in the Red and White camp. The fact that the Stamps went into the game with a totally inexperienced quarterback, due to the sudden decision of one individual, left the case almost hopeless from the start. The Green and Gold had the burst and the spirit and certainly deserved to win on the afternoon's play. Next weekend the Stamps sit out while the Eskimos take on the up and coming Lions in which could prove to be a very interesting afternoon of football.

A VOTE OF THANKS:

To Gordon Lillico, Alton Herbert,

George McMorris, Ken Landers, Harold Townsend, Keith Fehr, Robin Johansson and David Pattison for their kind assistance in marking the football field during the past two weeks. The local gridiron, made available by Henry Deby, has proven to be a most satisfactory athletic facility - no one could ask for a finer ball field than the one that we are now using. The heavily sodded surface will be a definite asset in inclement weather as the possibility of a mud bog would be most untimely.

WARNING:
All those using the football field are urged to request the use of the road that has been made from 50th. Avenue down to the facility. All cutting across unauthorized property is strictly prohibited. So think twice when you are tempted to take a shortcut.

Football

By Mike Gornley

ESKS TAKE OFFER:

The Pex Wee Into-Town Football League schedule got off to a flying start last Sunday afternoon at the D. V. Football Field. Last year's champions, the Eskimos, got off on the right foot once more with a rather one-sided 13-0 victory over the Stampeden. The little Green

and Gold machine under the direction of Dunc Larchalaster struck early and never were threatened. The Stamps on the other hand tried hard but could never get a serious attack underway.

As for statistics the Eskimos had a wide margin all the way down the line. The Green and Gold struck early in the ground to compile a total of eight first downs and an approximate total of 100 yards while the Red Riders made two first downs of approximately 35 yards. Dwayne Johnson the Stamp quarterback, was rushed on every move by the charging Eskimo line and could not get his line aerial attack going at any time. Jerry Lewis and Brian Church were the only notable ground gainers for the Stamps. The Eskis got most of their yardage on end runs with Stanley Luchak and Jerry Thudal leading the way. The T.D.'s were scored by Billy Hanson and Pat Hurley. The first major score was converted on a completed pass to Roy Lewinshuk in the end zone.

Next Sunday the Eskimos take on the other team in the loop, the Lions, in a regular scheduled game. The Lions under the tutelage of Rev. J.C. Wulff and Al King look sharp and should give a good account of themselves in a short time before the season is over.

ROUGHES GET ROUGHED:

The local Bantam grid season also got underway Sunday afternoon with Harold Townsend's All-Star team riding to an easy 33-0 victory over the D. V. Rough Riders. The Stars were razor sharp, started very strong, dominated play almost exclusively throughout the first half of play and coasted home with little or no difficulty.

The Red Jacks took the kickoff and promptly marched up the field with an unbroken series of kick downs. David Joyce ploughed away from the twelve for the T.D. Gordie Vasiloff converted and Stars led 7-0 with about three minutes of playing time gone. The Roughs tried an aerial kick but got nowhere and Cliff Lindshuk made a key interception to set up Kenny Steffen's major. Again Vasiloff's boot was good to make it 14-0. Vasiloff drove over for the next major score, and the convert failed to click. Gerald McMorris hit payd minutes later, once again the kick was low and wide leaving the half-time score at 25-0 in favor of the Stars.

The first scoring in the second half of the game came when Simon conceded a single on Vasiloff's punt. Gordie converted out the afternoon's scoring when he

rambled over from the fourteen. The convert was blocked. The Riders put on a late rally with Werner Baum getting a couple of consecutive first downs along the ground, however their passing attack failed to click and they never did get into a scoring position.

The All-Star squad has games lined against Stampeden in a home series on October 14th and 21st. They will likely be playing again next week. Bruce Bartons' Spartans, who are competing at the High School level will also get a taste of Central Alberta competition next weekend when they travel to Ponoka. They also have a Thanksgiving Weekend date in Watrous, a couple of outings each with Jasper Place and Camrose which will carry them into November and near the end of another football season.

CIVIL DEFENCE

CONTINUED FROM LAST WEEK

The radioactivity in fallout weakens rapidly in the first hours after an explosion. This weakness is called "decay". After seven hours, fallout has lost about 90% of the strength it had one hour after the explosion. After two days it has lost 99%: in two weeks 99.9% of its strength is gone. Nevertheless, if the radiation at the beginning were high enough, the remaining 0.1% could be dangerous. To remove any doubt, the radiation must be measured by special instruments handled by people trained to use them. Therefore, if you stay in a shelter during the first days, after an explosion, you escape the strongest radiation. You should stay in the shelter until you have been told over the radio that it is safe to come out.

DISTANCES
The strength of radiation reaching your body is reduced the further you are from the fallout. Here are some pictures of the safest place to be when you are in various kinds of buildings.

In the open no protection. Frame house without basement protection. You should stay in the shelter best protection. SHIELDING:

SHOP and SAVE on BAY DAY

THUR., FRI., SAT. SEPTEMBER 28, 29, 30

Values in every department

The most effective protection is to place some heavy material between yourself and the fallout. The heavier the material the better protection. Fortunately many common materials give excellent protection. The materials and designs of the fallout shelter recommended in B1 up-prints for Survival No. 1 will stop penetration of 99% of outside radiation.

Similar protection can be gained from these materials:

CENSUS

Drayton Valley's June 1961 Federal Census figures were very encouraging as to the size of our population. Drayton Valley, in fact, by quite a margin, six other towns, which, with the exception of Hinton, are all much older established communities than are we.

In 1966 the Federal mid-decennial census turned up 25,587 for Drayton Valley. Five years later, in the middle of this summer the figures showed that we had gained 1189 persons to claim a population total of 3,771.

COMING SEPTEMBER 29th! A New World of Worth from Chevrolet!

You'd expect Chevrolet to do it — and it has! Traditionally Chevrolet has been the leader who so deftly pinpointed the needs of Canadian motorists — and then so aptly developed the right cars to fill those needs! Now Chevrolet has done it again! From its his-

tory of achievement in engineering perfection, mechanical durability and luxurious comfort, Chevrolet takes another significant step into the future. And now in 1962, Chevrolet invites you to enter a new World of Worth.

A GENERAL MOTORS VEHICLE

62 Chevrolet—Rich new styling with Jet-smooth ride

Here's all the car anybody could want. Fresh-minted style that comes to a clean-sculptured climax in the new Impala Convertible. A road-granting Jet-smooth ride. A new choice of V-8 schedule. New Body by Fisher interiors that give wide berth to feet, hats and elbows. Beauty that's built to stay beautiful — right down to new front fender under-skirts for extra rust resistance. And here's more than ever to please you from the make that pleases the most people. Impalas — that take the high price out of feeling luxurious. Bel Airs — that ride as smooth as they look. Biscaynes — that sacrifice not one iota of comfort as they go their thrifty way. See your Chevrolet dealer and talk over this newest version of Canada's traditional leader!

Chevrolet Impala Convertible

CHEVY II — A TOTALLY NEW LINE OF CARS

It's the car just about everybody's been trying to build. But it remained for Chevrolet to come through with it. Here are all the time-tested virtues you expect from Chevrolet plus surprises you've never seen. A full line of saucy new-line models built a new way for easier service and maintenance. Thrifty? Only four cylinders to feed, or six if you like extra scamp. Roomy? Seated six solid citizens. Price? A most pleasant surprise (with the heater-defroster at no extra cost!).

Chevy II doesn't stint on anything — except gasoline! Its power plants both have hydraulic valve lifters and an 8.5 to 1 compression ratio. There's Chevrolet's famous Powerglide automatic transmission available. And there's a suspension system that includes Mono-Plate Rear Springs — part of an advanced, road smoothing suspension. But high on Chevy II's list of virtues is the comfort and style that until now has been known only in cars costing much, much more!

And it's yours to enjoy in all three series of Chevy II — in all nine models. There's the Chevy II 100 series — beauty built for every budget. The Chevy II 300 — function with a flair in a family car. And the Chevy II Nova 400 series — sensibility at its Sunday-best. Choose one — and you get everything you want in a car — including the dollar-lower price tag!

Chevy II Nova 400 Convertible

Chevy II 100 4-Door Station Wagon

ALL THIS IS YOURS IN A CHEVY II

- Body by Fisher — solid strength and lasting value
- Choice of 3 Power Plants — a four or six-cylinder-thrifty six
- Choice of 3 Transmissions — 3-speed Synchro-Mesh or Powerglide
- Industry-new Suspension System — Mono-Plate Rear Springs never require lubrication
- Power Features — Steering and brakes optional on all models

Chevy II 300 4-Door Sedan

- Unique Utilized Construction — two box-like sections for extra strength
- Exclusive Interiors — Handsome upholstery in a choice of color combinations

Corvair Monza Club Coupe

You'll never find joyful excitement wrapped up so carefully with economy, elegance and sports car dash as it is with Corvair for '62. There's the sure-footed agility that stems from Corvair's rear-engine and weight distribution — complete with its air-cooling ways. There's the sport appeal

of bucket seats* — and there's the kiddies' romping room that comes when the rear seat is folded down**. Certainly, the nine models of Corvair for '62, including the new Monza Station Wagon, combine the best of family comfort with a sports car flair — and an eye on economy!

Corvair Monza Station Wagon

*Optional on 300 and 700 series coupes and sedans. **Optional on 300 and 700 series coupes and sedans.

*Standard on the Monza Club Coupe. Optional at extra cost on the Monza 4-Door Sedan and the Monza Station Wagon.

Lost Man Returns Safely

Friends and relatives of Mr. Ed. Erickson, aged 76, a farmer in the Violet Grove district, were very worried over his recent disappearance when he went into the bush with others on a big game hunt and failed to return.

The party, comprised of Mr. Erickson, his son Artie, his nephew Forest Erickson and a friend, Ervin Roth, went into the bush about six miles up the Brazeau River from the damsite, on Monday morning, September 25th. The party separated and were to meet at the car at around dusk that evening. The rest of the party waited at the spot until about 3 o'clock the following morning and when Mr. Erickson did not show up by that time they concluded they had better return

to Drayton Valley and get additional help in finding him. They told his son, Fred, at Violet Grove and notified the local R.C.M.P. officers.

At daylight Tuesday morning they organized a search party, with the help of the R.C.M.P., and went back into the bush. In their search they were aided by men from the Poola and Mamta camps on the damsite, the Mobil Oil crew, Erickson's friends and neighbors and many others who joined in the hunt for the missing man. They had not found him by the time it got dark on Tuesday night so returned home and went out again at daybreak on Wednesday.

In the course of the search the R.C.M.P. police dog was brought in from Innisfail and used in the search, as well as the plane supplied by Mobil Oil.

The search parties fanned out through the heavily timbered country up-river from the dam all day Wednesday, without catching (Cont' on page 11, Col. 2)

Football

SPARTANS OUTSTANDING AT POKOKA, By Mike Gormley.

The Drayton Valley High School Spartans went all out to give the Pokoka H.S. squad the light of their life in an exhibition football game played in Pokoka last Saturday afternoon. The Spartans got off to a shaky start which coupled with inexperience appeared to be the deciding factor in dropping a 20-6 decision after a tremendous team effort and spirited determination on the part of all concerned. Penalties played an important part in the result as the locals were assessed approximately five times as much yardage as the host team. Most of those penalties could be charged to lack of experience rather than deliberate transgressions.

The Spartan defensive play was possibly the outstanding feature of the entire game. The defense (Cont' on page 11, Col. 3)

CHAMBER OF COMMERCE DINNER

The Annual Banquet meeting of the Chamber of Commerce was well attended and turned up a very interesting program in the talk that was given by Mr. Reg. Clark, executive member of the Alberta Chamber of Commerce and the Canadian Chamber of Commerce.

he expected to see the local Chamber take and every increasing part in the promotion and development of Drayton Valley, town and district.

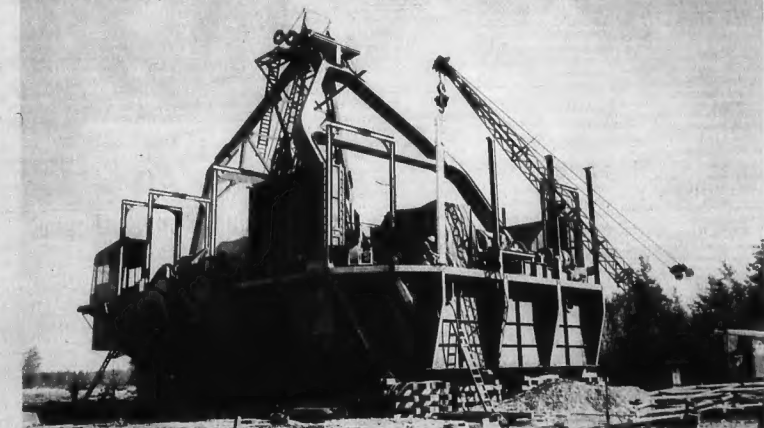

Mr. Fuhr told of the beginnings of the Chamber of Commerce in Drayton Valley, back in 1954, when oil development was just getting underway here. At the conclusion of his talk Mr. Fuhr as President of the Chamber of Commerce, and chairman of the meeting, introduced the guest speaker, Mr. Clark.

Mr. Clark gave a brief resume (Cont' on page 11, Col. 2)

"Another column is added to the Ramovex and Rapiex dragline which is being assembled for Calgary Power Ltd. near its Wabamun Thermal Plant west of Edmonton. The plant supplies the base electrical load for a transmission and distribution system covering 78,000 square miles of Alberta.

Next year, this electrically-driven machine will be stripping overburden from the company's coal reserve nearby, exposing coal which will provide fuel for the third steam generator currently being added to the Wabamun Plant. When completed, the dragline will have a total weight of 1,700 tons, including ballast, boom and bucket. The top of

the machine at its present stage, is 70 feet above the ground. The dragline's structural steel boom, when added, will extend beyond the operating cab almost four times the distance covered by the boom of a standard 50-foot crane such as the machine seen operating to the right of the dragline. Its 33 cu. yd. bucket

will remove 50 tons of material in a single load at a working radius of 215 feet. The walking shoes on which the dragline will move, will measure 50 feet in length. These shoes will be motivated by cable, one of which can be seen in the photo just behind and below the operating cab. Internal machinery is to be pro-

ected by two large square air conditioning units already installed on each side of the dragline. It is expected that the huge machine will be completed and ready to move from its erection site this November. Some idea of the size of the dragline can be gained by comparing it with the figure standing below the operating cab to the left of the photo."
